ADDITIONAL GAME MODES

Single Race Mode

Single Race mode allows one or two players to participate in one complete race.

➟ For a One Player Single Race, choose SINGLE RACE as your Race Type from the Game Setup screen, then select a track, purchase a car, and start your race. ➤ *Getting Started* on p. 5.
◆ For a Two Player Single Race, you must purchase a car prior to selecting SINGLE RACE or have saved cars on a Memory Card to compete.

Hot Pursuit

Play as a thrill-seeking civilian on the open roads, but beware of the local law enforcement authorities enforcing the speed limits as you race for the finish line. Or try your luck as an officer of the law, and use any means necessary to take down those who abuse the speed limit.

NOTE: Not all cars are available in Hot Pursuit mode.

When the cops give chase:

◆ Upon your first offense, if you pull over immediately, they'll issue a warning.
◆ If they stop you by force, you're busted. Valuable time ticks off the clock while they detain you.
◆ After getting busted too many times (depending on how many laps you're racing), they'll arrest you. If this happens, your game is over.

EA TIP

Don't get overconfident if you outrun the cops, they'll call in reinforcements with supercars that rival your machine.

When chasing a speeding car:

- The faster you catch a speeder, the more time you have to track down the next speeder.
- After the chase has gone on for an extended period of time, you may request back-up, roadblocks, and spikebelts to help stop the speeder.

➟ To access the Police menu, press and hold **L1**.

The best way to stop a speeder is by getting in front of the car and blocking its path.

HOT PURSUIT SETUP

Choose HOT PURSUIT as your Race Type from the Game Setup screen, then set up your race in the same manner you would in Test Drive mode. ➤ *Getting Started* on p. 5. The differences are noted below.

- On the Car Select screen, choose a dream machine or a police car.
- FULL GRID is not available in Hot Pursuit mode.

TWO PLAYER HOT PURSUIT

A Two Player Hot Pursuit race offers a variety of play options. Play on opposite sides of the law in a head-to-head confrontation or team up as police officers or speeders against CPU-controlled opponents.

TOURNAMENT MODE

A Tournament consists of a number of races, each taking place on a different track. Following a tournament race, check your position on the Tournament Standings screen.

- Placing in the top three in a tournament unlocks previously unavailable tracks. These tracks become available at the Track menu for all race modes.
- Winning some tournament races unlocks more Special Events to compete in.
- Race winnings are awarded to all drivers in a race, but only the top three earn Credit bonuses.
- If you complete a race without taking any damage and finish in the top three, you earn a Safe Driving Record bonus. However, if your car takes excessive damage in a race, you have to pay a large Repair Bill.
- Check out the Trophy Room for Tournament and Special Events descriptions, qualifications, and awards.

- The Race Info screen appears to inform you where your next race takes place.

Special Events Mode

Special Events mode is similar to Tournament mode.

- As you win the more prestigious events, new supercars become available for use in all race modes.

SPECIAL EVENTS SETUP

Choose SPECIAL EVENTS as your Race Type from the Game Setup screen, then set up your race in the same manner you would a Single Race mode. ➢ *Getting Started* on p. 5. The differences are noted below.

- After selecting a Race Type, the Special Events screen appears.

To choose a Special Event:

   - To compete in certain events, you must have the requisite amount of credits to pay the Entrance Fee.
2. Highlight CONTINUE and press ✖. The Race Info screen appears.

High Stakes Mode

A High Stakes race is just like a Two-Player Single Race, but you must compete with saved cars. Before the race, each user's car is removed from their memory card. Then, after the race, both cars are saved on the winning driver's memory card.

HIGH STAKES SETUP

Choose High Stakes as your Race Mode from the Game Setup screen, then set up your race as you would a Single Race. The differences are noted below.
